Software Trainee

- Got chance to work with Senior Developers who were very passionate about Technology
- Developed a responsive web based application for the client
- Technology used (HTML, CSS, Bootstrap, JavaScript, ReactJS).

PROJECT

1. Client : Sunny Rewards LLC

www.sunnyrewards.com

Sunny Reward Benefits is a gamified platform it is a U.S.-based health equipment company with a mission to promote health consciousness among individuals. It incentivizes users to engage in health-related activities by offering rewards and creating a fun, interactive experience. The platform integrates features like challenges, progress tracking, and achievements to motivate users and foster positive habits. On this platform, health insurance company consumers will be encouraged to complete various tasks and in return, they will receive monetary rewards deposited into their wallet accounts established on the Sunny Rewards platform. This initiative aims to motivate individuals to prioritize their health and well-being while enjoying financial benefits.
